

**REMARKS**

By this Second Preliminary Amendment, new Claims 6-12 have been added for examination. Claim 6 and 12 find support from the drawings and from the numerical information at page 6, lines 11-13, where the surface layer is of thickness 0.14 microns but the pits are of depth about 0.4 microns.

Favorable action is courteously solicited.

Respectfully submitted,

10/26/2007

/William H Holt/
